

Special Issue

Biology, Biodiversity and Conservation of Marine Mammals and Sea Turtles

Message from the Guest Editors

The scope of this Special Issue is to share scientific contributions about marine mammals and sea turtles focusing on their biology, ecology, and conservation. Worldwide marine animal populations are facing pressing threats and understanding their critical role in maintaining the health of our planet has become an urgent priority, as viewed through a One Health perspective. Scientists are exploring the extraordinary adaptations of these species to human and natural changes, utilizing the latest advances in marine biology technology and enabling comprehensive research on marine animals like never before. Today, numerous challenges exist in studying and protecting the components of the marine trophic web at various levels, ranging from the smallest turtle hatchlings to majestic whales. Furthermore, conservation policies are shedding light on innovative solutions for monitoring marine biodiversity and establishing actions to recover endangered species. Multidisciplinary results are essential in bridging the knowledge gap on the biodiversity and biology of marine species, illustrating conservation strategies and actions for the protection of the marine ecosystem.

Guest Editors

Dr. Guido Pietroluongo

Dr. Tommaso Gerussi

Dr. Cinzia Centelleghé

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
