

Special Issue

Ecology and Diversity of Diptera in the Tropics

Message from the Guest Editor

Insects are by far the most diverse class of arthropods. Within the class, Diptera is the second most diverse order, with diversity of more than 170 thousand species cataloged thus far in mid-2024 (catalogue of life). Despite the immense number of species already described, more conservative estimates indicate that this number is still greatly underestimated, especially in the Tropics. Furthermore, studies on phylogenetic relationships, cryptic species, ecological aspects, evolution, and biogeography are still poorly known for most Dipterans. This Special Issue, “Ecology and Diversity of Diptera in the Tropics”, aims to provide an opportunity to publish high-quality original papers and reviews on the diversity, phylogeny, and ecology of tropical Diptera.

Guest Editor

Dr. Felipe Arley Costa Pessoa

Oswaldo Cruz Foundation, Leonidas and Maria Deane Institute, Manaus, AM, Brazil.

Deadline for manuscript submissions

31 August 2025

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
