

## Special Issue

# The Taxonomy, Evolution, and Phylogeography of Marine Invertebrates

### Message from the Guest Editor

During the last quarter of the century, the advent of molecular phylogenetic methods has generated a drastic increase in the number of studies devoted to the evolutionary history of taxa of various ranks, as well as their taxonomic diversity and distribution. Phylogenetic and phylogeographical approaches may provide a new insight into the speciation of marine taxa and the history of marine communities. The dispersion of animals and their isolation under the influence of global climatic and tectonic changes are directly related to the extinction of taxa and the formation of new ones, which means that they are as equally important as descriptive systematics, ecology, and functional morphology in evolutionary and faunistic research. For this Special Issue, we invite manuscripts that advance our current knowledge on the biodiversity, taxonomy, evolution, and phylogeny of marine invertebrates, either on their own or in any combination.

## About the Journal

### Message from the Editor-in-Chief

*Diversity* (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1  
(Agricultural and Biological Sciences (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
