

Special Issue

Tropical Aquatic Biodiversity

Message from the Guest Editors

Tropical aquatic systems and their biodiversity are threatened by several anthropogenic activities. In this challenging scenario, to know tropical diversity, evaluating and monitoring different aquatic systems and identify bioindicator species becomes essential to make management/conservation measures and develop public policies more effective. This Special Issue will focus on tropical aquatic biodiversity and its distribution with implications for biomonitoring, management and conservation. Authors are encouraged to submit their manuscripts on the following topics:

- Tropical ecology and species diversity
- Effects of anthropic activities on aquatic systems and diversity/distribution of tropical aquatic species.
- Biomonitoring, management and conservation of tropical aquatic systems and their species.
- Studies of bioindicator species in tropical aquatic systems

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Nature and Landscape Conservation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
