

## Special Issue

# Freshwater Zoobenthos Biodiversity, Evolution and Ecology

### Message from the Guest Editors

We are pleased to announce a forthcoming Special Issue of Diversity focused on freshwater zoobenthos, which is a key indicator group for monitoring environmental change in freshwater ecosystems. The freshwater zoobenthos consists, mostly, of insect larvae, crustacean, annelids, and molluscs, with > 200,000 estimated species in the world. Due to their high species diversity, specialized life cycles, and sensitivity to water environmental changes, freshwater zoobenthos are important biological indicators for monitoring and assessment of freshwater ecosystem health. This Special Issue aims to seek high-quality original submissions that advance our understanding of freshwater zoobenthos biodiversity, evolution, and ecology, including studies in the fields of classic and molecular taxonomy, DNA barcoding, phylogeny (articles with only a single mitochondrial genome and related simple phylogenetic analysis will not be considered), ecology, and biogeography.

### Guest Editors

Dr. Xiao-Long Lin

Prof. Dr. Hongying Sun

Dr. Kai Chen

Dr. Li-Na Du

Dr. Bing-Jiao Sun

### Deadline for manuscript submissions

closed (31 December 2024)

## About the Journal

### Message from the Editor-in-Chief

*Diversity* (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1  
(Agricultural and Biological Sciences (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
