

Special Issue

Foraminiferal Research: Modern Approaches and Emerging Trends

Message from the Guest Editors

This Special Issue aims to become a comprehensive collection of papers delving into the latest advancements and innovative methodologies in foraminiferal studies, highlighting their critical role in environmental monitoring, paleoclimate reconstruction, and biogeography. It will cover diverse topics such as the use of foraminifera as climate change bioindicators, genetic and molecular techniques for species identification, and the application of cutting-edge imaging technologies. Additionally, it will present foraminiferal applications in various industries, including oil and gas exploration, and discuss future research directions and interdisciplinary approaches. By bringing together contributions from leading experts in the field, this issue aims to foster a deeper understanding of foraminiferal research and its implications for environmental science and beyond, addressing some of the most pressing environmental challenges of our time.

Guest Editors

Dr. Patricia Eichler

Dr. Moab Praxedes Gomes

Prof. Dr. Jere H. Lipps

Deadline for manuscript submissions

31 January 2026

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
