Ecology, Distribution, Impacts, and Management of Invasive Plants

Message from the Guest Editors

Invasive alien plant species have altered biogeographical distribution and caused serious economic damage, environmental problems, loss of biodiversity, and threatened ecosystem safety, as well as human and animal biosecurity. Consequently, exploring the invasion mechanism, potential distribution, and impacts of invasive plants is of great importance in relation to developing their sustainable management globally. However, the spread and expansion of invasive alien plants is still a big challenge worldwide. The invasion mechanism and effective management against principal, serious, and new invasive plant species are often inadequate. Therefore, this Special Issue is designed to highlight the recent research progress on the ecology, distribution, impacts, and management of invasive alien plants. Authors are encouraged to submit their original research and review articles to this Special Issue.

Guest Editors

Prof. Dr. Shicai Shen

Dr. Xiaocheng Zhu

Prof. Michael Denny Day

Deadline for manuscript submissions

30 September 2026

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
