

Special Issue

Biodiversity in Subterranean Habitats

Message from the Guest Editor

In this Special Issue we welcome the submission of manuscripts tackling various types of organisms, from bacteria and fungi to salamanders and bats. We encourage studies that have a main focus on the ecological relationships of taxa with environmental parameters, about the biology of species, as well as biogeographic studies. If the manuscript has a strong focus on taxonomy, it should be extended beyond simple taxonomic description of new species and embedded within a higher framework, such as the ecology of the group of study and/or molecular phylogeny and biogeography.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
