

Special Issue

Ecology and Evolution of Mammals

Message from the Guest Editor

This Special Issue of *Diversity* covers a wide range of scientific research on the synecology and autecology of mammals in Europe. These areas of study represent the peculiarities of the behavior and mutual relations of species as constituent elements of biocenoses and their existence as functional systems, including synergistic relationships. The morphology, taxonomy, systematics and phylogeny of specific species of mammals are a reflection of the history of their development over time and the general process of evolution, in combination with the conditions of existence in constantly changing environments. The unifying scientific theme of these two sections is paleoecology, which at the same time reflects the processes of adaptation (evolutionary morphology), taxonomic heterogeneity and the dynamics of climatic changes over time.

Guest Editor

Prof. Dr. Leonid Recovets

Institute of Biology, Wrocław University of Environmental and Life Sciences, Norwida 25, 50-375 Wrocław, Poland

Deadline for manuscript submissions

closed (31 July 2024)

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
