

Special Issue

Aquatic Restoration Ecology and Monitoring

Message from the Guest Editors

For this Special Issue, we will focus on the observational, experimental, and monitoring projects associated with aquatic (fresh, brackish, and marine) restoration. Topics may include but are not limited to genetic, taxa, and habitat/ecosystem compositional, structural, and functional diversity topics of theoretical foundations of disturbance, succession, fragmentation, and ecosystem structure and function, emerging topics of genetics and genetic diversity, time frame, performance standards, stable states/assembly, and ontogeny, and application of theory for soils and sediments, species interactions, and successional trajectories.

- aquatic restoration ecology
- disturbance
- succession
- ecosystem structure and function
- biodiversity
- monitoring
- observational studies
- experiments
- stream restoration
- wetland restoration

Guest Editors

Prof. Dr. Alan Christian

Ursinus College, 601 E. Main Street, Collegeville, PA 19426-1000, USA

Dr. Sean McCanty

Biology Department, University of Massachusetts Boston, 100 Morrissey Boulevard, Boston, MA 02125, USA

Deadline for manuscript submissions

closed (31 December 2021)

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
