Special Issue

Socioecology and Biodiversity Conservation—2nd Edition

Message from the Guest Editor

Due to worldwide co-evolutive reasons, hot spots of biodiversity coincide with hot spots of cultural, and even linguistic, diversity. Therefore, to preserve global biodiversity, socio-ecological studies on local communities must be conducted. These studies must take into account the social, economic and cultural needs and aspirations of the local communities in relation to biodiversity conservation policies. This Special Issue focuses on describing the interactions between the local inhabitants and environmental systems all around the world. It aims to help understand how social groups contextualize ecological knowledge, anthropic activities contribute to modifying the environment, cultural and economic aspects influence the use, management and conservation of their ecological environment, and to understand social phenomena in light of ecological knowledge.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1 (Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
