

Special Issue

Ecology, Conservation and Restoration of Plant Species

Message from the Guest Editors

Plants supply edible, medicinal, oil, industrial raw materials for humans. The continuous improvement and enrichment of human well-being, to a certain extent, rely on the excavation and use of plants. However, plant resources are facing an unprecedented threat as affected by the impact of human disturbance in combination with global climate change. The degradation or loss of habitat has resulted in an accelerated rate of extinction of plant species, as well as changes in the zonation, biological phenology, and reproductive patterns of plant species. Recently, the conservation and restoration of plant species are being brought into the focus of ecological research. More details at:

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
