Special Issue

Ecological Connectivity among Tropical Coastal Ecosystems

Message from the Guest Editors

For this Special Issue, we invite submissions focusing on different aspects of ecological connectivity among tropical coastal ecosystems, including the consequences of connectivity for species distributions and biodiversity patterns, ecosystem function, stability. resilience and recovery. We are especially interested in studies with a management-oriented focus (e.g., site selection in MPA design and restoration, coupled social-ecological connectivity and land-sea connectivity). These studies can include local to global or site-specific studies, as well as meta-analysis approaches. Thereby, this Special Issue will highlight new research and significant advances in the field of ecological connectivity and aid in building the evidence base required to support the UN Sustainable Development Goals and the implementation of the Convention of Biological Diversity Global Biodiversity Framework.

Guest Editors

Dr. Charlotte Berkström

- Department of Aquatic Resources, Institute of Coastal Research, Swedish University of Agricultural Sciences, Skolgatan 6, SE-742 42 Öregrund, Sweden
- 2. Department of Ecology, Environment and Plant Sciences, Stockholm University, S-106 91 Stockholm, Sweden

Dr. Simon Pittman

- 1. Seascape Analytics Ltd., Plymouth PL2 1RP, UK
- 2. Oxford Seascape Ecology Lab., School of Geography and the Environment, University of Oxford, Oxford OX1 2JD, UK

Deadline for manuscript submissions

closed (15 June 2022)

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1 (Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
