

Special Issue

Ecosystem Observation, Simulation and Assessment

Message from the Guest Editors

Ecosystem observation, simulation and assessment have always been vital in the field of ecology. In recent years, with the progress of science and technology, ecosystem observation methods and instruments have been developing rapidly, and there are increasing numbers of ground observation networks and earth observation satellites. At the same time, with the enhancement of the stress effects of climate change and human disturbance on the natural ecosystem, the ecosystem at global and regional scales is changing. Whether from the perspective of ecology itself or the sustainable development of human society, the simulation and evaluation of the ecosystem state and its changing characteristics are a key research focus. This Special Issue is intended to provide a platform for academic exchange regarding progress in ecosystem observation, simulation and evaluation.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
