Phylogeny, Biogeography and Diversity of Crustaceans

Message from the Guest Editor

The aim of the present Special Issue is to publish high-quality papers on the phylogeny, biogeography and distribution of crustaceans from any kind of environment, including marine, terrestrial and inland waters, as well as parasites and free-living organisms, considering the great variety of crustacean species with different adaptations to any kind of environment.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).
