Interesting Images from the Sea

Message from the Collection Editors

Underwater photographers and aquarists produce many attractive pictures that may tell an interesting story. Most of these pictures are posted on websites and social media where they have little scientific relevance. They could also serve as basis for published observations in *Diversity* (as Interesting Images), which may lead to new scientific insights and hypotheses. Therefore, *Diversity* encourages the submission of such Interesting Images. No regular manuscript text (introduction/methods/results/discussion) should be included. Instead, they are treated as short notes with an abstract (max 100 words), a maximum of five keywords, and up to 15 references. There is no limit to the number of illustrations (which can be arranged as panels in Figures with captions), but they should all be relevant and of good quality. Video footage may be included as Electronic Supplementary Material. Image files can be included either in the template or uploaded separately in high resolution.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
