

Special Issue

Molecular Ecology and Evolution of Fishes

Message from the Guest Editors

We invite submissions of papers using molecular data to address classic questions and processes in the ecology and evolution of fishes. This Special Issue reflects on the connections between molecular ecology and evolution as well as their applications in fish monitoring using environmental DNA, barcoding, metabarcoding, species identification and delimitation, phylogeography, and integrative taxonomy. It incorporates papers addressing specific questions at different taxonomic levels of fishes and presents new insights to understand ecological and evolutionary processes in addition to new technologies that can impact the identification and recognition of fish subclades.

Guest Editors

Dr. Daniel Carvalho

Conservation Genetics Laboratory, Post-Graduate Program in Vertebrate Biology, Pontifical Catholic University of Minas Gerais, PUC Minas, Belo Horizonte 30535-610, Brazil

Dr. Bruno Melo

Department of Ichthyology, Division of Vertebrate Zoology, American Museum of Natural History, New York, NY 10024, USA

Deadline for manuscript submissions

closed (30 August 2022)

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
