

Special Issue

Microbial Diversity in Different Environments

Message from the Guest Editor

In recent years, research focus has shifted their focus towards the role of soil microbial function under stress with the aid of recent molecular advances such as metagenomics. The response of soil microbial composition and function to vegetation composition changes and ecosystem degradation has been a hot topic in terrestrial ecosystems. This Special Issue aims to provide a forum for researchers to share the latest findings in the mechanisms by which soil microbial composition and function are affected by terrestrial ecosystem degradation, such as in forests, wetlands, grasslands, and agricultural landscapes. High-quality original research and review articles in this field are welcome for submission

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
