

Special Issue

Ecology, Distribution, and Conservation of Endangered Birds

Message from the Guest Editor

The Special Issue titled “Ecology, Distribution, and Conservation of Endangered Birds” in *Diversity* focuses on various aspects of avian ecology, particularly concerning endangered species. It is likely to cover the following themes based on the journal's scope:

- **Ecological Studies:** Research on the ecological roles of endangered bird species, including their interactions within ecosystems and their contributions to biodiversity.
- **Distribution Patterns:** Analysis of the geographical distribution of endangered birds, identifying hotspots of diversity and areas at risk due to habitat loss or climate change.
- **Conservation Strategies:** Discussions on effective conservation measures, including habitat protection, restoration efforts, and policy recommendations aimed at mitigating threats to endangered bird populations.
- **Impact of Human Activities:** Examination of how human-induced factors such as urbanization, agriculture, and climate change affect the survival of endangered birds.
- **Case Studies:** Specific examples of endangered bird species and the unique challenges they face, along with successful conservation initiatives.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
