

Special Issue

Vascular Plant Diversity at Different Scales

Message from the Guest Editor

This Special Issue is conceived as a forum for updating strategies for the measurement of vascular plant diversity at different scales (alpha, beta, and gamma diversity) but also for detecting changes in composition and structure on endangered but also wide-distribution species and ecosystems as a consequence of the incidence of global change. As an example, manuscripts covering the knowledge of the diversity of genetic resources and the possible adaptation of populations and/or communities to changing environmental conditions, or focusing on the changes that occur in different species assemblages due to extreme climatic events and their possible evolution in time, or those approaching theoretical or practical aspects of taxonomic, phylogenetic or functional diversity of vascular plants will be welcomed for publication in this Special Issue.

Guest Editor

Dr. José M. García del Barrio

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
