

Special Issue

Biogeography, Ecology and Conservation of Reptiles

Message from the Guest Editors

This latest Special Issue will focus on new studies on reptile ecology, biogeography and conservation—three intrinsically linked subject areas. The papers published in a Special Issue will be collected and displayed on a dedicated page of the journal's website and this Special Issue particularly seeks studies that are interdisciplinary and that combine aspects of ecology, ethology and biogeography, so that the contributions can be of broad interest to a large number of readers. There are no limitations as to biogeographical region, and studies from the Global South are particularly welcome.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Nature and Landscape Conservation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
