

Special Issue

Revealing the Puzzle of the Past through Ancient Biomolecules: From Wild to Tame Faunal Diversity

Message from the Guest Editors

In this Special Issue of *Diversity* we aim to bring the story of extinct and extant faunal diversity to life, from wild to domesticated populations, retrieved from subsurface and surface archaeological and palaeontological deposits, by analysing ancient biomolecules (DNA, proteins, lipids, and stable isotopes). The manuscripts should provide insight and present new challenges and perspectives on the spatio-temporal ancient faunal diversity within palaeoecological contexts. We hope this Special Issue will approach a broad variety of topics and species, from the extinct Pleistocene megafauna to ancient and medieval wild and domestic stocks, and offer a better understanding of drivers of past faunal diversity on Earth.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
