

Topical Collection

Feature Papers in Animal Diversity

Message from the Collection Editor

As *Diversity* is a generalist journal, we hereby propose to authors to submit articles outlining the state-of-the-art on some special features concerning animal diversity.

The papers will be presented in the form of articles/reviews that can cover all subdivisions of biodiversity: natural history, evolution, phylogeny, biogeography, conservation, and even revisions of the systematics of related taxa.

They must represent a starting point to further research and be equally accessible to nonbiologists and to specialists in the field.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
