

Special Issue

Aquatic Environmental Monitoring and Assessment

Message from the Guest Editor

The field of aquatic environmental monitoring and assessment has experienced many changes and advancements over recent decades. These range from shifts in study design to more adaptive approaches, to the advancement of genetic tools and techniques to assess presence/absence, and to diversity. With continued threats to freshwater and marine ecosystem functions and ecosystem services from habitat modification and destruction, pollution, population decline, invasive species, and climate change, this Special Issue will provide a stage upon which basic and applied research in aquatic monitoring and assessment can apply new approaches and techniques to address the challenges of aquatic monitoring across variable spatial and temporal scales to address the topics listed above.

Guest Editor

Dr. Michelle Gray

Faculty of Forestry and Environmental Management & Canadian Rivers Institute, University of New Brunswick, Fredericton, NB E3B 5A3, Canada

Deadline for manuscript submissions

closed (30 June 2019)

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
