Special Issue

Diversity and Distribution of Wildlife Species in Relation to Human Impacts

Message from the Guest Editor

Tens of thousands of wildlife species are increasingly confronted with habitat degradation and threatened with local extirpation and global extinction as a result of human activities. As anthropogenic activities expand in natural areas, wildlife habitats face growing fragmentation, degradation, and loss, which negatively affect species diversity and distribution. In the Anthropocene, understanding the impacts of anthropogenic influence on diversity and distribution of wildlife communities is increasingly relevant to effective conservation. This Special Issue will focus on human impacts on diversity and distribution of wildlife species with implications for wildlife conservation. More details at:

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1 (Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
