Fungal Diversity in the Mediterranean Area

Message from the Guest Editor

Fungi are a group of organisms with a high level of diversity. Macrofungi have long been considered as food for humans, but after the Rio de Janeiro Convention in 1992, they were recognized as playing a key role in maintaining the balance of ecosystems. In addition to the socioeconomic aspects and their commercial exploitation, the conservation of fungal biodiversity is now fundamental in view of their medicinal properties and biological peculiarities. This review aims to provide the most comprehensive overview of the presence of these organisms in the Mediterranean area and includes the most recent investigation in forestry, biological control, molecular phylogeny, biogeography, speciation, and medical applications.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
