Evolutionary and Conservation Genetics of Large Carnivores

Message from the Guest Editors

This Special Issue invites research papers that will increase our understanding of the evolutionary and conservation genetic processes that characterize large carnivores and their important function in ecosystems. The Special Issue shall provide a space for advances in methods and novel genetic research on large carnivores.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).
