

Special Issue

Diversity of Marine Invertebrate and Seaweed Symbiotic Bacteria

Message from the Guest Editor

The diverse range of marine bioactive compounds, especially those from marine-symbiotic bacteria, has been utilized for variety of industrial and environmental applications. However, to maximize the stream of bioactive compounds from these symbiotic bacteria, sound understanding on the taxonomical and functional diversity of these symbionts has to be increased. This Special Issue, entitled “Diversity of Marine Invertebrate and Seaweed Symbiotic Bacteria”, is designed to generate such information, to improve the understanding on the existence of true symbiotic relationships between the host and symbiotic bacteria, which, in turn, will aid towards utilization of such bacteria for biodiscovery and biotechnology.

Guest Editor

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
