

Special Issue

Diversity Theories and Perspectives

Message from the Guest Editor

This Special Issue is aimed at soliciting a collection of Forum papers discussing all aspects of ecological diversity from the author's specific perspective: what is our today's knowledge, what needs to be done, what are the most controversial points, etc.

All submitted papers are subject to ordinary peer-review, nonetheless the authors are encouraged to communicate their own ideas in an informal (though scholarly rigorous) colloquial style. Dr. Carlo Ricotta

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).
