

## Special Issue

# Zoological Checklists: From Natural History Museums to Ecosystems

### Message from the Guest Editor

Species checklists are a prerequisite for ecological studies, biodiversity assessment and monitoring, conservation reports, and other analyses related to biodiversity. Such checklists are used in various ecosystems to monitor species richness and population trends, in order to achieve the protection of biodiversity. The present Special Issue aims to collect papers reporting lists of animal species.

### Guest Editor

Prof. Dr. Sabrina Lo Brutto

## About the Journal

### Message from the Editor-in-Chief

*Diversity* (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1  
(Agricultural and Biological Sciences (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
