an Open Access Journal by MDPI

Evidence-Based Drone Innovation & Research for Healthcare

Guest Editors:

Dr. Paul Royall

Institute of Pharmaceutical
Science, Department of
Pharmacy, Faculty of Life
Sciences & Medicine, King's
College London, 150 Stamford
Street, London SE1 9NH, UK

Dr. Patrick Courtney

Tec-Connection, Oberlohnstrasse
3, D78467 Konstanz, Germany

Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editors

The editors of this Special Issue seek papers which cover successful drone operations in hard-to-reach communities, developments in safety and aircraft technologies which are focused on meeting the requirements of medical logistics between hospitals, clinics and, where possible, directly to the point-of-care and the patient. Novel studies which are associated with maintenance of the medicine, medical product or patient sample quality and stability are welcome. Additionally, the submission of papers which evaluate how patients and communities interact with drone medical logistics services is encouraged. Research showing how drone platforms may be instrumented to allow the testing of patients at the point-of-care, within their communities, are also welcome.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Diego González-Aguilera

Cartographic and Land
Engineering Department, Higher
Polytechnic School of Avila,
University of Salamanca, Hornos
Caleros, 50, 05003 Avila, Spain

Message from the Editor-in-Chief

Drones is the only international open-access journal about the science, policy and technology of drones and its applications. Nowadays, the proliferation of drones is a reality for local policy makers, regulatory bodies, mapping authorities, startups and consolidated companies. There are many uses and benefits of drones: from the emergence of new sensors and the evolution of new platforms; to the development of specific software and the emergence of new applications. *Drones* publishes reviews, regular research papers, communications and short notes, without restriction on the length of papers. *Drones* seeks to provide a central forum for scholars engaged in drones' research and applications.

There is a need for high quality papers in this area and the *Drones* Editorial Board are widely recognized international leaders. *Drones* journal guarantees a serious peer review and a rapid publication across the whole discipline of drones.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Remote Sensing*) / CiteScore - Q1 (*Aerospace Engineering*)
