Editorial Board Members' Collection Series: On Selected Areas in Distributed Privacy and Security of Drones

Message from the Guest Editor

We are pleased to announce a new collection entitled "Editorial Board Members' Collection Series: On Selected Areas in Distributed Privacy and Security of Drones", which will collect papers invited by the Editorial Board Members. The aim of this collection is to provide an opportunity to explore "novel theories of decentralized privacy, security and safety in relation to Drones and their automation and orchestration". All papers will be published in an open access format following peer review.

Guest Editor

About the Journal

Message from the Editor-in-Chief

Drones is an international open access journal focusing on advancing research in drone science, policy, technology, and applications. Today, drones have become indispensable for policymakers, regulatory authorities, mapping agencies, start-ups, and established firms. Their expanding societal and economic relevance is reflected in the rapid development of new sensors, upgraded platforms, specialized software, and novel applications. The journal provides a central forum for scholars in drone research and applications to exchange findings and innovations. With growing demand for high-quality research, our Editorial Board comprises international leaders and experts across relevant scientific areas. We offer rigorous peer review and rapid publication of papers from across all areas of drone science. We welcome you to submit your next paper to *Drones* and to contribute to the continued advancement of and innovations in the field of drones.

Editor-in-Chief
