

Special Issue

Unmanned Aerial System in Geomatics

Message from the Guest Editors

This Special Issue is dedicated to researchers and practitioners addressing new challenges in unmanned aerial vehicle (UAV) manufacturing, geospatial data sensing, representation, processing, visualization, analytics, development, sharing and managing, in all aspects concerning both unmanned aerial system technology and geo-informatics. With this SI we welcome original papers of either practical or theoretical nature, presenting research or applications of a specialized or interdisciplinary nature, addressing any aspect of geographic information systems and UAV technologies.

Guest Editors

Prof. Dr. Kamal Jain

Dr. Goutam Chattopadhyay

Prof. Dr. Yongjun Zhang

Prof. Dr. Biswajeet Pradhan

About the Journal

Message from the Editor-in-Chief

Drones is the only international open-access journal about the science, policy and technology of drones and its applications. Nowadays, the proliferation of drones is a reality for local policy makers, regulatory bodies, mapping authorities, startups and consolidated companies. There are many uses and benefits of drones: from the emergence of new sensors and the evolution of new platforms; to the development of specific software and the emergence of new applications. *Drones* publishes reviews, regular research papers, communications and short notes, without restriction on the length of papers. *Drones* seeks to provide a central forum for scholars engaged in drones' research and applications.

There is a need for high quality papers in this area and the *Drones* Editorial Board are widely recognized international leaders. *Drones* journal guarantees a serious peer review and a rapid publication across the whole discipline of drones.

Editor-in-Chief

Prof. Dr. Diego González-Aguilera

Cartographic and Land Engineering Department, Higher Polytechnic School of Avila, University of Salamanca, Hornos Caleros, 50 05003 Avila, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex and other databases.

Journal Rank:

JCR - Q1 (Remote Sensing) / CiteScore - Q1 (Aerospace Engineering)
