

Special Issue

Application of Artificial Intelligence in Emergency Care

Message from the Guest Editor

This collection of articles delves into the intersection of artificial intelligence (AI) and emergency medicine, with a particular focus on leveraging insights from transcriptomics, proteomics, and radiomics. From predictive analytics for risk stratification to individualized treatment strategies, these articles explore the multifaceted role of AI in enhancing patient care in emergency and critical care scenarios. By harnessing data from electronic health records, transcriptome analyses, proteomic profiling, and radiomic imaging, researchers are uncovering novel approaches to early detection, accurate diagnosis, and personalized treatment planning. Through innovative methods and advancements in AI-driven approaches, this Special Issue aims to showcase the transformative potential of AI in revolutionizing emergency care practices.

About the Journal

Message from the Editor-in-Chief

Emergency Care and Medicine is an open-access, scientific, peer-reviewed electronic journal for those who provide immediate, emergency, and urgent care, manage Emergency Medical Service systems, or are engaged in fundamental, clinical, and epidemiological research work, literature reviews, audits, and quality improvement programmes. The journal will also benefit anyone who is interested in learning more about acute care and emergency health care services.

Editor-in-Chief

Prof. Dr. Raimundas Lunevicius
Department of General Surgery, Liverpool University Hospitals NHS
Foundation Trust, Lower Lane, Liverpool L9 7AL, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.9 days after submission; acceptance to publication is undertaken in 5.5 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and reviewer names are published annually in the journal.
