

Special Issue

Evolutionary and Behavioral Ecology of Insects

Message from the Guest Editor

Due both to their relative ease as experimental subjects and their overwhelming share of animal biodiversity, insects have proven to be excellent models for studies of evolutionary and behavioral ecology. The editor of this Special Issue welcomes submissions of both original research and synthetic reviews on the following topics in insect ecology: life history evolution, symbiosis, dispersal and migration, sexual selection and mating systems, foraging and defense, sex ratios, resistance evolution, intra- and interspecific communication, parental care, and sociobiology. Applied entomological research articles are welcomed so long as they are rooted in a basic understanding of one or more of the above fields.

Guest Editor

Dr. Mark Asplen

Natural Sciences Department, Metropolitan State University, Saint Paul, MN 55106-5000, USA

Deadline for manuscript submissions

closed (31 May 2022)

About the Journal

Message from the Editor-in-Chief

Ecologies is an international, peer-reviewed, open access crossdisciplinary journal, which provides an advanced forum for studies on all aspects of ecology. The journal publishes reviews, original research articles, and communications in this field. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible so that the results can be reproduced. We, therefore, invite you to be one of our authors, and in doing so share your important research findings with the global ecology community.

Editor-in-Chief

Prof. Dr. José Ramón Arévalo Sierra
Department of Botany, Ecology and Plant Physiology, Faculty of
Sciences, University of La Laguna, 38202 La Laguna, Spain

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23 days after submission; acceptance to publication is undertaken in 5.5 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and reviewer names published annually in the journal.
