

Special Issue

Plant Communities: Identification, Monitoring and Evaluation of Temporal Dynamics

Message from the Guest Editor

We are pleased to introduce this new issue, which addresses the context of global challenges associated with climate change, community adaptation and resilience, and biodiversity conservation. We are glad to invite your original contributions dealing with a broad spectrum of community ecology topics from any part of the world, including, but not limited to, the following research areas:

- Identification and characterization of dominant species
- Classification of plant ecological communities
- Spatial distribution modeling and prediction
- Remote sensing differentiation and mapping
- Monitoring and evaluation of temporal dynamics

We thank you in advance for your contributions to this Special Issue.

Guest Editor

Dr. Ram C. Sharma

Department of Informatics, Tokyo University of Information Sciences, 4-1 Onaridai, Wakaba-ku, Chiba 265-8501, Japan

Deadline for manuscript submissions

30 April 2026

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. José Ramón Arévalo Sierra
Department of Botany, Ecology and Plant Physiology, Faculty of
Sciences, University of La Laguna, 38202 La Laguna, Spain

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO,
and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 25.8 days after
submission; acceptance to publication is undertaken in 8
days (median values for papers published in this journal in
the first half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and
reviewer names published annually in the journal.
