Message from the Guest Editors

Dear Colleagues,

We welcome submissions of papers in all areas of development economics with an emphasis on exploring the impact of education and health on economic development. Specific topics include but are not limited to: AIDS, climate, conditional transfers, cultural legacies, disease, dropout, economic growth, education, foreign investment, gender gaps, geography, health, historical legacies, human capital development, impact evaluation, incentives, income, infrastructure, labor policies that promote productive employment, macroeconomic management, malaria, mortality, perceived returns to education, poverty, and protection against the effects of environmental shocks, randomized controlled trial, schooling, student resources, teacher training, technology, trade, and water.
