

Special Issue

International Trade and Logistics for Economic Development

Message from the Guest Editor

We invite original research articles, review papers, and case studies addressing, but not limited to, the following topics:

- international trade and economic development;
- logistics performance, infrastructure, and competitiveness;
- global value chains and supply chain resilience;
- trade facilitation, customs procedures, and border management;
- transport systems, multimodal logistics, and regional connectivity;
- digitalization in international trade, logistics, and supply chain management;
- urbanisation, industrial development, and circularity;
- sustainability, green logistics, and responsible trade practices;
- geopolitical risks, trade disruptions, and supply chain reconfiguration;
- trade competitiveness, logistics networks, and sectoral development;
- regional integration, cross-border connectivity, and economic resilience;
- comparative, regional, and country-level studies on trade and logistics development.
