Economics of Energy Market

Message from the Guest Editors

Energy is essential to human wellbeing since it enables us to carry out every day economic, social, and developmental activities. In fact, dependence on energy is enormous, and it is challenging to imagine an economy without a widely accessible, dependable, and adequate source of energy. The dramatic increase in oil prices in the 1970s highlighted the importance of energy in the economic development of countries. Currently, researchers, academics, and even policymakers are more interested in energy studies than they were before as the shock of the Russia–Ukraine war hit the global economy. Today, energy markets are more linked to political economy, climate change, energy derivatives, and economic growth.

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Ralf Fendel

WHU—Otto Beisheim School of Management, Burgplatz 2, 56179
Vallendar, Germany

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), EconLit,
EconBiz, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Economics) / CiteScore - Q1 (Economics,
Econometrics and Finance (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 22 days after
submission; acceptance to publication is undertaken in 5.7
days (median values for papers published in this journal in
the first half of 2025).
