

## Special Issue

# Computational Macroeconomics

### Message from the Guest Editor

The availability of big data, fast communication channels, information openness, and the development of computer science have formed the base for a great number of financial innovations. This Special Issue “Computational Macroeconomics” seeks empirical research papers that employ modern data science analysis methodologies and explore the wide range of publicly available open access big data databases. In particular, we would appreciate contributions on monetary policy and systemic risk; high frequency and informed trading; bank default risk and stress testing; money illusions and heterogeneous beliefs; international entrepreneurship in high economic growth countries; financial market volatility shocks and spillover effects in oil-dependent countries and agricultural transformation in rural countries.

### Guest Editor

Assoc. Prof. Alexander Borochkin

Department of Finance and Credit, The Institute of Economics and Entrepreneurship, Lobachevsky State University of Nizhni Novgorod (UNN), Nizhni Novgorod, Russia

### Deadline for manuscript submissions

closed (15 June 2019)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Ralf Fendel  
WHU—Otto Beisheim School of Management, Burgplatz 2, 56179  
Vallendar, Germany

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, ESCI (Web of Science), EconLit,  
EconBiz, RePEc, and other databases.

##### Journal Rank:

JCR - Q2 (Economics) / CiteScore - Q1 (Economics,  
Econometrics and Finance (miscellaneous))

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 22 days after  
submission; acceptance to publication is undertaken in 5.7  
days (median values for papers published in this journal in  
the first half of 2025).
