

Special Issue

Pollution and Economic Development

Message from the Guest Editor

We welcome submissions of papers from all areas of economics, with an emphasis on exploring the interactions among environment, pollutions and economic development. Specific topics include, but are not limited to: Productivity development and pollution, structural transformation and pollution, green growth and pollution, the growth dividend from promoting environmental policy, pollution and economic growth in emerging economies, sustainable growth, the government's role in growth and pollution reduction in emerging economies, new normal growth, and pollution in China. We welcome the submission of articles based on original theoretical and/or empirical research, analytical survey papers and policy-oriented think pieces.

Guest Editor

Dr. Lin Zhang

School of Energy and Environment, City University of Hong Kong, Hong Kong, China
