

## Special Issue

# Productivity and Efficiency Analysis

### Message from the Guest Editor

Rising productivity of workers has been a synonym for economic progress. To enhance our understanding of the many dimensions of productivity, *Economies* is publishing a special issue on productivity, including productivity within nations, sub-national units, or industries. What factors cause growth or slowdown of productivity? What constrains productivity growth in some countries but not in others? Does a higher productivity automatically lead to higher wages or does it increase happiness? What has been the evidence on productivity convergence or lack thereof across countries or regions? We welcome papers on labor productivity or total factor productivity or a comparison between them. We also invite papers on the role of input efficiency vis-à-vis technological progress in productivity growth? Many countries seem to experience wide variations in productivity across sectors for extended periods of time. Do such differences persist because of sustained variations in technological progress across industries? If so, why are resources not reallocated fast enough? Also, critical surveys analyzing historical or modern literature on productivity are highly welcome.

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Ralf Fendel  
WHU—Otto Beisheim School of Management, Burgplatz 2, 56179  
Vallendar, Germany

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, ESCI (Web of Science), EconLit,  
EconBiz, RePEc, and other databases.

##### Journal Rank:

JCR - Q2 (Economics) / CiteScore - Q1 (Economics,  
Econometrics and Finance (miscellaneous))

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 23.3 days after  
submission; acceptance to publication is undertaken in 6.5  
days (median values for papers published in this journal in  
the first half of 2026).
