Message from the Guest Editors

Dear colleagues,

The presence and impact of ICT within the educational environment today is indisputable, and thus, a responsible and safe behavior toward different devices and networks has become essential. The internet and social networks and their irruption in all areas of life have changed the forms of communication and interaction and how privacy had previously been understood. Therefore, we advocate an educational model that promotes digital competence, both of teachers and students, prioritizing a motivated use of different educational agents. This approach is certain of all the elements and factors involved in this learning.

Message from the Editor-in-Chief

From its first issue in 2011, *Education Sciences* (ISSN 2227-7102) has grown as a scholarly international open access journal. Its aim remains to publish extended full-length research papers that have the scope to substantively address current issues in education. As a member of the Committee on Publication Ethics (COPE), our goal has been to disseminate high quality research. Our publisher, MDPI, takes the responsibility to enforce a rigorous double-blind peer-review together with strict ethical policies and standards to ensure to add high quality scientific works to the field of scholarly publication.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, ESCI (Web of Science), Educational Research Abstracts, PscyInfo, and other databases.
Journal Rank: CiteScore - Q1 (*Education*)
