### Message from the Guest Editors

Dear Colleagues,

This Special Issue is seeking papers on perspectives and challenges in moving online during this time, and the opportunities it has created. It will draw together ways the community has operationalized this transition, from on-campus to fully online to blended. It will look at ways institutions have managed processes such as quality assurance, teaching and assessment adaptations, student and staff wellbeing, and accessibility issues. It will also provide an opportunity for practitioners and researchers to reflect on lessons learnt, and the positives we can take forward in future health education.
