Message from the Guest Editor

Dear Colleagues,

Pedagogy for teaching science lectures and laboratories has been widely recalibrated to account for the shift from face-to-face to remote instruction. The goal of the Special Issue is to outline research-based findings regarding the best practices for instruction or assessment; incorporate research identifying and discuss factors impacting student experience, including sense of community, study strategies, and motivation; describe new technologies and impacts of technology within the classroom or laboratory. Additional topics are possible provided the contributed article outlines aspects related to online instruction.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

From its first issue in 2011, *Education Sciences* (ISSN 2227-7102) has grown as a scholarly international open access journal. Its aim remains to publish extended full-length research papers that have the scope to substantively address current issues in education. As a member of the Committee on Publication Ethics (COPE), our goal has been to disseminate high quality research. Our publisher, MDPI, takes the responsibility to enforce a rigorous double-blind peer-review together with strict ethical policies and standards to ensure to add high quality scientific works to the field of scholarly publication.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Educational Research Abstracts, PsycInfo, and other databases.

Journal Rank: JCR - Q1 (Education and Educational Research) / CiteScore - Q1 (Physical Therapy, Sports Therapy and Rehabilitation)
