

Special Issue

Building Literacy Skills in Primary School Children and Adolescents

Message from the Guest Editors

This Special Issue titled 'Building Literacy Skills in Primary School Children and Adolescents' will have two foci:

- Reading processes and instructions, shown through empirical research, that help students to proficiently decode words with fluency and understanding;
- Reading issues encountered by students as they transition into adolescence.

For this Special Issue, we welcome submissions of original, quantitative research articles and research reviews. Among others, some potential research areas may include the following:

- Phonemic awareness;
- Alphabet knowledge;
- Letter-sound knowledge (or correspondence);
- Morphological awareness;
- Reading fluency;
- Role of text in reading development;
- Vocabulary;
- Reading comprehension.

Articles may focus on a specific grade, or combination of grades across kindergarten through grade eight and may address a single reading process or combinations of processes. Studies focusing on the transition years following formal phonics instruction, quite often encompassing third through fifth grade, are also of interest.

About the Journal

Message from the Editor-in-Chief

From its first issue in 2011, *Education Sciences* (ISSN 2227-7102) has grown as a scholarly international open access journal. Its aim remains to publish extended full-length research papers that have the scope to substantively address current issues in education. As a member of the Committee on Publication Ethics (COPE), our goal has been to disseminate high quality research. Our publisher, MDPI, takes the responsibility to enforce a rigorous double-blind peer-review together with strict ethical policies and standards to ensure to add high quality scientific works to the field of scholarly publication.

Editor-in-Chief

Prof. Dr. Daniel Muijs
