

Special Issue

Interactive Simulations and Innovative Pedagogy for Conceptual Understanding in Science Education

Message from the Guest Editor

Interactive simulations are increasingly used in science classrooms to enhance students' understanding of scientific concepts. Research into the effectiveness of computer-based technologies such as scientific visualisations, however, often shows no significant increase in learning gains. The results of this work may be patchy because the focus has been on the computer-based 'tool' rather than on the combination of educational technologies and appropriate pedagogies. This Special Issue of *Education Sciences* is devoted to collecting cutting-edge research demonstrating the affordances of interactive simulations, linked with explicit attention to pedagogy, for learning. I am delighted to invite you to submit a paper for the Special Issue, and to pass on the call to colleagues in the field who can make a significant original contribution to knowledge. If the Special Issue exceeds 10 papers it will be published in book form, and this is something I will work hard to achieve.

About the Journal

Message from the Editor-in-Chief

From its first issue in 2011, *Education Sciences* (ISSN 2227-7102) has grown as a scholarly international open access journal. Its aim remains to publish extended full-length research papers that have the scope to substantively address current issues in education. As a member of the Committee on Publication Ethics (COPE), our goal has been to disseminate high quality research. Our publisher, MDPI, takes the responsibility to enforce a rigorous double-blind peer-review together with strict ethical policies and standards to ensure to add high quality scientific works to the field of scholarly publication.

Editor-in-Chief

Prof. Dr. Daniel Muijs

School of Social Sciences, Education and Social Work, Queen's
University Belfast, Belfast BT7 1NN, UK

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Educational Research Abstracts, PsycInfo, and other databases.

Journal Rank:

JCR - Q1 (Education and Educational Research) / CiteScore
- Q1 (Physical Therapy, Sports Therapy and Rehabilitation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.2 days after submission; acceptance to publication is undertaken in 3.9 days (median values for papers published in this journal in the first half of 2025).
