

Special Issue

Shrinking Opportunity and Achievement Gaps

Message from the Guest Editors

This Special Issue, "Shrinking Opportunity and Achievement Gaps", addresses the unhappy reality that educational proficiency and attainment can be predicted on the basis of factors that should be superfluous, such as race, ethnicity, social class and dominant language. The resulting disparities in achievement appear to be driven, in large part, by opportunity gaps that exist in the general society outside of school. Schools, however, strive to fashion instructional and organizational interventions capable of mediating the effects of these opportunity gaps, as well as correct factors in school culture, curriculum, and instruction contributing to gaps in both opportunity and achievement. We welcome for inclusion in this Special Issue articles that: (1) provide a theoretical basis for narrowing gaps; (2) present studies (qualitative, quantitative, or mixed) that demonstrate effective gap shrinking interventions, and/or (3) describe practices that narrowed gaps successfully.

About the Journal

Message from the Editor-in-Chief

From its first issue in 2011, *Education Sciences* (ISSN 2227-7102) has grown as a scholarly international open access journal. Its aim remains to publish extended full-length research papers that have the scope to substantively address current issues in education. As a member of the Committee on Publication Ethics (COPE), our goal has been to disseminate high quality research. Our publisher, MDPI, takes the responsibility to enforce a rigorous double-blind peer-review together with strict ethical policies and standards to ensure to add high quality scientific works to the field of scholarly publication.

Editor-in-Chief

Prof. Dr. Daniel Muijs
