

## Special Issue

# Feature Papers of Electronic Materials—Third Edition

### Message from the Guest Editor

This is a Special Issue of high-quality papers in open access format by the Editorial Board Members of *Electronic Materials*, or those invited by the Editorial Office and the Editor-in-Chief. The objective of this Special Issue is to present a compilation of exceptional, unique articles and comprehensive reviews that cover a wide range of materials relevant to the field of electronics. Our belief is that these articles will be extensively read and will significantly impact the field. We are confident that the high quality and originality of the content will capture the attention of readers and inspire further research and development in this area.

## About the Journal

### Message from the Editor-in-Chief

I am delighted to introduce the new online open access journal *Electronic Materials* (ISSN 2673-3978). The aim of *Electronic Materials* is to publish high-quality and high-impact research papers, as well as review articles addressing recent advances in fundamental science, engineering, and practical applications of electronic materials. The interdisciplinary topics of the journal include materials science, device engineering, and the physics of electronic and magnetic properties. *Electronic Materials* also welcomes Special Issue proposals from academics and industrial researchers from all related fields. We encourage scientists and engineers worldwide to publish their innovative ideas and cutting-edge developments and technologies in the field of electronic materials.

The journal is now open for submission and the Editorial Team welcomes your manuscripts for publication.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, Ei Compendex, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 26.6 days after submission; acceptance to publication is undertaken in 5.2 days (median values for papers published in this journal in the first half of 2025).
