

## Security and Privacy for Modern Wireless Communication Systems, 2nd Edition

Guest Editors:

**Dr. Tao Huang**

**Dr. Shihao Yan**

**Prof. Dr. Guanglin Zhang**

**Dr. Tsz Hon Yuen**

**Dr. YoHan Park**

**Prof. Dr. Changhoon Lee**

**Dr. Jusak Jusak**

Deadline for manuscript  
submissions:

**30 September 2024**

### Message from the Guest Editors

Security and privacy have consistently been crucial concerns within wireless communication systems. To address these concerns effectively, innovative approaches to cryptography, physical layer transmission strategies, network protocols, and related regulations are in high demand. Over the past decade, wireless communication networks have witnessed significant advancements and transformations across various dimensions.

This Special Issue focuses on the latest research in protocols, software/hardware development and implementation, and system architecture design that addresses the emerging security and privacy issues in modern wireless communication networks. Topics including but not limited to the following:

- Deep-learning-based security and privacy design;
- Covert communications;
- Security in UAV-assisted networks;
- Information-theoretical foundations for advanced security and privacy techniques;
- Lightweight cryptography for power-constrained networks;
- Physical layer design with security consideration;
- Security and privacy design for vehicle networks;
- Blockchain-based solutions for modern wireless communication networks.

an Open Access Journal by MDPI

Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPus / SciFinder](#), [Inspec](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
